Dissemination of R&D Results and Promoting Collaboration with Industry-Academia-Government

Japan Atomic Energy Agency (JAEA) promotes collaboration with industry, academia and government such as joint research, technical co-operation for creating new values. JAEA introduces its intellectual properties with showing production samples at the academic meetings, industrial exhibitions etc.

JAEA R&D results, i.e. technical reports, journal articles and patents are accumulated by database and providing through JAEA web site.

Japan Atomic Energy Agency R&D Information Service

Bridge to next innovation

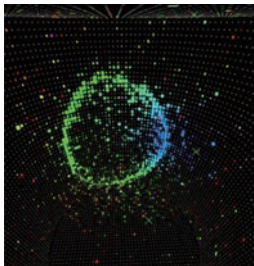

JAEA Library

Break new ground for the future of nuclear energy and contribute to welfare of human society

OUR MISSION

On the basic premise of ensuring safety, we will conduct R&D in the field of nuclear energy in a systematic, comprehensive and efficient manner, aiming to secure stable energy supplies, solve global environmental issues and create new science, technology and industry, widely disseminating our R&D achievement, and thus contribute to the improvement of welfare of human society and rise in the national living standards.

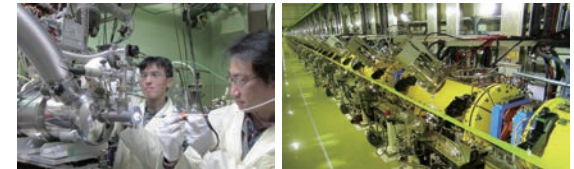

Fukushima Nuclear Accident Archive (FNAA) is searchable website for the Internet-based information and the oral presentation information about the accident at the Fukushima Daiichi Nuclear Power Station.

JAEA Originated Papers Searching System (JOPSS) is our institutional repository. Bibliographic information of our R&D results and full-text of JAEA Reports are available. **JAEA R&D Review** is annual publication that informs you of the current topics of our R&D. Web edition is also available.

JAEA Reports

JAEA Library is one of the largest nuclear information centers in Japan. JAEA Library holds 73,000 books, 2,000 journals and 780,000 technical reports in field of nuclear power, physics, chemistry and engineering etc. JAEA Library is member of International Nuclear Library Network (INLN) of International Atomic Energy Agency (IAEA).

These services are available from our website.
